

# Forest Stewardship

Southern Windsor County Region

## Forest Ecological Resources

- |                               |                                                                         |
|-------------------------------|-------------------------------------------------------------------------|
| Moose Collision               | Bear Mast-Wetland Feeding Sites                                         |
| Bear Collision                | Deer Wintering Area                                                     |
| Bear Crossing                 |                                                                         |
| <b>Priority Forest Blocks</b> | <b>Rare, Threatened and Endangered Species, and Natural Communities</b> |
| High Suitability              | Animal                                                                  |
| Low Suitability               | Plant                                                                   |
|                               | Natural Community (S1 and S2 only)                                      |

DATA SOURCES:  
 WILDLIFE HABITAT BLOCKS: Jens Hilke, Vermont Department of Fish and Wildlife; Eric Sorenson, Vermont Agency of Natural Resources; Jon Osborne, Vermont Land Trust.  
 RARE, THREATENED AND ENDANGERED SPECIES, AND NATURAL COMMUNITIES: Vermont Nongame and Natural Heritage Program, Vermont Agency of Natural Resources, 2010. For Natural Communities it shows just those ranked S1 and S2.  
 DEER WINTERING AREAS: Vermont Department of Fish and Wildlife, 2011.  
 BEAR AND MOOSE DATA: Jens Hilke, Vermont Department of Fish and Wildlife.
