### **4/12 Public Meetings – Seeking input for The Current Bus Routes in Springfield, Ludlow, Bellows Falls, Cavendish and Chester**

Southeast Vermont Transit (often known as “The Current”) is in the middle of a project to evaluate the buses it runs in the Springfield/Ludlow/Bellows Falls area. The majority of this project is focusing on a survey of existing and potential bus riders which was completed in January. We had a great response to the survey and now we want to continue the conversation with two public meetings.

**Tuesday April 12, 2016  
11am and 5pm  
Springfield Town Hall, 96 Main St**

The following bus routes are included in this project:

- Springfield In-Town (#1)
- Bellows Falls In-Town (#2)
- Bellows Falls to Springfield (#55)
- Bellows Falls to Ludlow (and Rutland) (#57)
- Bellows Falls to Okemo (#61) (seasonal)

For more information about the project, the draft report with survey results and information about how to get to the meetings by bus, see <http://swcrpc.org/bus-route-evaluation-project-2016/>

For more information on existing bus routes, see [www.crtransit.org](http://www.crtransit.org)

Thank you.
