

Quick guide to the [Southern Windsor County Services](#) web map

The Services Map shows the services and community resources available in Southern Windsor County, and beyond. This tool is intended to provide a regional visual snapshot into the location and distribution of important support-based services and resources.

Where we could find it, we have included information on/about each service – click on the individual icons on the map to see this. If you click where it says 'More info' you will be taken to that service's website.

The map will behave like most web maps:

- Click and drag to move around the map
- Use the “+” or “-” to zoom in and out
- Your mouse wheel should also zoom in and out

Service Types

- Food
- Health Services
- Other Resources
